

**The RTC of Southern Nevada &
the Nevada Department of Transportation
Present**

Benefits of Idling Reduction

**The Regional Transportation Commission of Southern Nevada
600 S. Grand Central Parkway
Las Vegas, Nevada**

Instructor: Pat Mohn, NDOT
pmohn@dot.state.nv.us; (775) 888-7693

Lecture Dates: May 30, 2007 10 AM, Room 296
July 25, 2007; 10 AM, Room 108
August 29, 2007; 10 AM, Room 108
November 14, 2007; 10 AM, Room 108

All public lectures will be hosted by the RTC of Southern Nevada at the address above.

Emissions from diesel-powered vehicles contribute to smog in urban areas and can cause a variety of adverse health effects. Unnecessary idling also costs money in wasted fuel and engine wear.

These lectures will outline the cost and environmental benefits of reducing the idling time of diesel-powered motor vehicles and equipment. They are free and open to the public. Upon invitation, these lectures can also be given to individual public and private fleet operators, also at no cost.

Space is limited to 50 participants for each public lecture, so please contact Pat Mohn of NDOT to pre-register or to schedule a private presentation.
